Canceling FIM EEC - European Endurance Legend Cup

The OW Cup organization would initially organize the Dutch round for the European Endurance Legend Cup on the TT Circuit Assen on Friday 5, Saturday 6 and Sunday 7 June 2020, but due to the Corona crisis, it unfortunately became impossible to organize a large European event. By closing the borders the teams could no longer travel within Europe. This event has been moved to 2021 in consultation with the EEC and the TT circuit Assen.

Motorsport weekend June 5, 6 and 7 2020

Never before in its 27th anniversary has CRT experienced a start to the motorsport season like this year, but there is hope on the horizon. . .

It is expected, and what every motorsport enthusiast hopes for, is that from 1 June 2020, motorcycles will be allowed to ride on the TT Circuit Assen again under certain conditions. If the government gives permission on May 12 that we can ride on the TT Circuit Assen, the CRT and OW Cup organization will organize a large motorsport event in the first weekend of June.

No less than three days full of motorsport and races are planned for Friday 5, Saturday 6 and Sunday 7 June.

Scheduled program

- *Friday, June 5:* Group A: CRT licensing course; group B: fixed group SportGridTime; group C: sportriders; group D: possibility to book from 1 to 5 separate SportGridTime sessions; all groups 5 sessions 20 minutes.
